

Sneha Kulkarni

Junior Full-Stack Developer

Pune, Maharashtra · [Phone] · [Email] · [Website or LinkedIn]

PROFESSIONAL SUMMARY

Computer engineering graduate with a six-month internship building internal dashboards in React and Node.js for a logistics startup. Comfortable writing REST APIs, SQL queries and unit tests, and used to working through code reviews in a small agile team. Looking for a junior full-stack role where shipping to real users every sprint is the norm.

SKILLS

JavaScript · React · Node.js · Express · MySQL · REST APIs · Git workflows · Jest unit testing · Data structures

EXPERIENCE

Software Development Intern — Early-stage logistics technology startup, Pune

6-month internship

- Built a React dashboard that let the dispatch team track around 400 daily shipments without exporting spreadsheets from the old admin panel.
- Wrote seven Express endpoints for delivery status updates, with input validation and Jest tests covering the main success and failure paths.
- Reduced a slow order-history query from roughly four seconds to under one second by adding a composite index after reading the query plan.
- Fixed thirty-plus bugs raised by the operations team, pairing with a senior engineer during weekly code reviews.

EDUCATION

B.E. Computer Engineering — Private engineering college affiliated to a state university, Pune

CGPA 8.4 / 10; final-year project on route optimisation

Class XII (Science) — State board junior college, Pune

CERTIFICATIONS AND REGISTRATIONS

- NPTEL certificate in Programming, Data Structures and Algorithms
- Online course in full-stack JavaScript with capstone project

PROJECTS

- Hostel Mess Tracker — Node and MySQL web app used by about 250 students to log meals and flag wastage
- Placement Prep Board — React app with timed coding quizzes, deployed on a free cloud tier with a public repo
