EXPERIENCE

Nursing Intern — 500-bed government teaching hospital, Kolkata

6-month internship

- Rotated through medical, surgical and paediatric wards, caring for eight to ten patients per shift under a senior staff nurse.
- Recorded four-hourly vitals and intake-output charts, flagging abnormal readings to the duty doctor within the same round.
- Performed supervised IV cannulation and dressings on post-operative patients, following aseptic technique and ward infection-control checklists.
- Conducted bedside teaching on insulin storage and foot care for newly diagnosed diabetic patients before discharge.

Community Health Posting — rural primary health centre, Hooghly district

4-week clinical posting

- Assisted with antenatal check-ups and routine immunisation sessions for mothers and infants from nearby villages.
- Helped run a door-to-door hypertension screening drive, measuring blood pressure for residents across two wards.

EDUCATION

Diploma in General Nursing and Midwifery (GNM) — government school of nursing, Kolkata

Passed with first division; best clinical record award in the final year

Higher Secondary (Science) — state board higher secondary school, Howrah

CERTIFICATIONS AND REGISTRATIONS

- Registered Nurse and Registered Midwife, West Bengal Nursing Council
- Basic Life Support (BLS) certification

PROJECTS

- Hand-hygiene audit — observed ward compliance for two weeks and presented simple reminders that the ward sister adopted at every sink
