

Sneha Bhattacharya

Assistant Professor of Economics

Kolkata, West Bengal · [Phone] · [Email] · [Website or LinkedIn]

PROFESSIONAL SUMMARY

Economics researcher with a PhD submitted in development economics and UGC NET with JRF, seeking an assistant professor post. Taught undergraduate microeconomics and statistics tutorials as a research fellow, and has two papers in peer-reviewed journals. Comfortable with Stata and R, and keen to build courses that link economic theory with Indian survey data.

SKILLS

Microeconomics · Development economics · Econometrics · Stata and R · NSS and NFHS datasets · Tutorial teaching · Academic writing · Research methodology

EXPERIENCE

Junior and Senior Research Fellow — Department of economics, state university, Kolkata
5 years

- Conducted doctoral research on women's labour-force participation using household survey microdata across eastern Indian states.
- Took weekly tutorials in intermediate microeconomics and introductory statistics for groups of thirty undergraduate students.
- Published two papers in peer-reviewed journals and presented findings at three national economics conferences.
- Assisted a faculty-led project funded by a national social science research council with data cleaning and field survey coordination.

Guest Lecturer — Government-aided undergraduate college, Kolkata
1 semester

- Taught a full semester of Indian economy to a second-year honours class of about fifty students.
- Set internal assessment papers and evaluated answer scripts according to the university's grading scheme.

EDUCATION

PhD in Economics (thesis submitted) — State university, Kolkata
Thesis on gender and rural non-farm employment

M.A. Economics — Central university, New Delhi
First division, specialisation in quantitative methods

CERTIFICATIONS AND REGISTRATIONS

- UGC NET with Junior Research Fellowship, Economics
- Research methodology workshop, national social science research council

- Online course on econometrics, SWAYAM

PROJECTS

- Survey data teaching kit — prepared cleaned household survey extracts and exercises for undergraduate statistics tutorials
