EXPERIENCE

Software Testing Intern — Health-tech startup building a doctor appointment app, Bhopal
6-month internship

- Wrote 220 test cases for booking, payments and reminders, using boundary values and equivalence classes for input fields.
- Logged 85 defects in Jira with steps, screenshots and device details; developers accepted nearly all of them on first review.
- Tested 30 REST endpoints in Postman, including negative cases for expired sessions and invalid slots.
- Automated the login and booking smoke suite in Selenium, trimming daily smoke testing from an hour to ten minutes.

Freelance Tester — Crowdfunding platform, Remote
8 months · part-time
