

Fatima Shaikh

Senior Frontend Engineer

Pune, Maharashtra · [Phone] · [Email] · [Website or LinkedIn]

PROFESSIONAL SUMMARY

Senior frontend engineer with six years building React and TypeScript applications for SaaS and fintech products. Leads the web platform for a B2B procurement tool, owns its component library and performance budgets, and reviews code for a squad of five. Cares about accessibility, fast page loads and clear documentation that helps new engineers contribute within their first week.

SKILLS

React · TypeScript · Next.js · Redux Toolkit · Web performance · Accessibility (WCAG) · Jest and Playwright · Design systems · CI/CD pipelines · Code reviews

EXPERIENCE

Senior Frontend Engineer — Series-B B2B procurement SaaS company, Pune

3 years · current

- Lead frontend architecture for a React and TypeScript web app used by around 600 enterprise buyers, reviewing work for five engineers.
- Migrated the app from client-side rendering to Next.js, cutting the largest contentful paint on key pages by about 40 percent.
- Built a shared component library with Storybook documentation, which reduced duplicate UI code and sped up new feature delivery.
- Added Playwright end-to-end tests to the release pipeline, catching regressions that previously reached customers roughly twice a month.

Software Engineer - Frontend — Digital payments company, Mumbai

2 years 6 months

- Developed merchant dashboard features for settlement reports and refunds, serving thousands of small merchants across India.
- Improved keyboard navigation and screen-reader labels across checkout settings after an internal accessibility audit.
- Worked with backend engineers to paginate heavy transaction tables, removing browser freezes reported by large merchants.

Associate Software Engineer — IT services company, Pune

1 year

- Maintained Angular screens for an insurance client's policy portal and resolved production tickets within agreed service levels.
- Wrote unit tests for form validation logic that had caused repeated premium calculation defects in user acceptance testing.

- Documented setup steps for the project's local environment, helping three new joiners start contributing within days.

EDUCATION

B.E., Information Technology — University-affiliated engineering college, Pune

CERTIFICATIONS AND REGISTRATIONS

- AWS Certified Cloud Practitioner

PROJECTS

- Open-source contribution — fixed date-picker accessibility issues in a popular React UI library, merged after maintainer review
