

Riya Banerjee

UI/UX Designer

Kolkata, West Bengal · [Phone] · [Email] · [Website or LinkedIn]

PROFESSIONAL SUMMARY

Communication design graduate with a five-month UI/UX internship at a healthtech startup, designing appointment booking screens and running quick usability tests. Builds responsive layouts with Figma auto-layout and variables, writes clear handoff notes for developers and presents findings calmly. Seeking a junior product design role where research shapes decisions on every release.

SKILLS

Figma · Wireframing · Prototyping · Usability testing · User interviews · Responsive design · Design handoff · Visual hierarchy

EXPERIENCE

UI/UX Design Intern — Early-stage healthtech startup, Kolkata

5-month internship

- Redesigned the doctor appointment booking flow after testing with eight patients, reducing the steps needed to confirm a slot from seven to four.
- Created 35 reusable Figma components with documented states, which developers reused across the patient and clinic apps.
- Wrote annotated handoff notes for each sprint, cutting back-and-forth clarification messages with the frontend team.

EDUCATION

B.Des., Communication Design — Private design institute, Kolkata

Graduation project on wayfinding for suburban railway stations

CERTIFICATIONS AND REGISTRATIONS

- Google UX Design Professional Certificate
- Interaction design course on accessibility basics

PROJECTS

- Local train ticketing concept — redesigned a mobile ticket purchase flow and tested it with 10 daily commuters
- Bengali-first recipe app — explored bilingual typography and navigation for first-time smartphone users
